10. Troubleshooting

1. Sign in and out

1. Open the **Login** page.
2. Enter your **Username or email** and **Password**. Your full name works as the username.
3. Tap **Sign in**. You stay signed in for 7 days on that device.
4. Tap **Logout** when you finish, especially on a shared computer.

2. Admin → Overview

Four counters: **Total bookings**, **Pending bookings** (need approval), **Confirmed bookings** (arrivals scheduled) and **Total revenue** (paid bookings and deposits).

Admin dashboard Overview tab

3. Admin → Bookings

Approve bookings, block holidays and check occupancy.

1. Under **Booking approvals**, find the pending booking.
2. Record the guest's payment first (Payments tab). **Confirm after payment** stays disabled until the booking is Paid or Deposit paid.
3. Tap **Confirm after payment**, or **Decline** to cancel the booking.

- **Block a holiday**: under **No-booking dates**, pick the **Holiday date**, type the **Holiday name** and tap **Add no-booking date**. Weekends are blocked automatically. Tap **Delete** next to a date to reopen it.
- **Occupancy calendar**: use **Previous** / **Next** or the month and year lists. Hover over a day to see which cottages are booked.

4. Admin → Payments

Upcoming check-ins lists the next confirmed arrivals. **Recent payments** shows the five newest bookings with amount paid, balance, proof and payment log.

1. Tap **Verify** on the booking (**Pay balance** if a deposit was already paid).
2. Enter **Payment details** (for example "GCash ref 123456"), **Paid by** and **Amount to apply**. The amount cannot exceed the balance.
3. Add the **Proof of payment image**: upload a photo under 750 KB, or tap **Use camera** then **Capture photo**.
4. Tap **Save and mark paid**. The booking becomes Paid, or Deposit paid if part paid. Your name is saved in the payment log.

- **Refund**: tap **Refund** on a paid booking, enter **Amount refunded** and **Reason for refund**, then **Save refund**. This marks the payment Refunded but does not cancel the booking.

5. Admin → Cottages

Pick a cottage in **Select cottage**, change what you need, then tap **Save cottage**.

- **Add cottage** creates a draft; it is only kept after **Save cottage**.
- **Delete cottage** and **Delete category** ask you to type DELETE.
- **Categories**: add one with a name and description. A category must be empty before it can be deleted.
